LIQUIDATION IN ORDER

BULLS GAVE UP HOPE AND UNLOAD. ED THEIR SHARE HOLDINGS.

President's Message Had a Bearish Effect on the Industrials-An Easter Tone in Local Markets.

At New York yesterday money on call

was firmer at 6 to 8 per cent.; last loan, 6 per cent. Prime mercantile paper, 51/206 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.86 204.87

for demand, and \$4.81%@4.81% for sixty days; posted rates, \$4.821/2 and \$4.871/2; commercial bills, \$4.80\\@4.81. Silver certificates were 581/2@591/2c; bar silver was 59c; Mexican dollars were 471/4c.

Bar silver at London was steady at Yesterday's events in the New York stock markets brought additional discouragement to those who had been attempting to maintain or advance prices of securities. Liquidation was the order of the day, and many holders who have waited for weeks on deferred hopes of the situation clearing up and the bull market being inaugurated threw over their holdings during the session. The weakness was most apparent in the industrials and specialties, but the railroad stocks were very generally sold. There was some buying of stocks last week on the presumption of speculative professionals that the President's message was to be a bullish document, and its publication yesterday brought profit-taking from those sources, in the natural order of events. The paragraphs of the message bearing on the subject of industrial combinations was the ground for the special weakness in the industrial department. Quite a number of securities are from one to three points lower on the day. A single lot of United States Milling preferred sold at 12 against 2214 the last preceding sale. This stock sold on Sept. 15 at 781/2. But the principal influence in the day's weakness was the money situation. The spasmodic character of the selling and the exceeding dullness of the intervening periods reflected the operation of loan contraction by the banks, the successful calling of loans throwing blocks of securities upon the market, which found no support awaiting them. There were slight signs of firmness in the early dealings, especially in Sugar and some of the railroad stocks. The trunk lines remained comparatively firm throughbut the slight evidences of strength

elsewhere gave way to the general tide of weakness. Call money reached 8 per cent. early in the day, and receded to 6 before the close, but the easing of the rate did not bring any strength to stocks in view of the general outlook. Shipments of money are still being made to New Orleans, and the New York exchange rate at important interior centers continues at a material discount. Notwithstanding Monday's disbursements by the subtreasury of over \$800,000, on account of bond redemptions. that institution was a debtor at the clearing house yesterday morning to the extent of over \$200,000. Its gain from the banks since last Friday has reached \$1,655,000. The majority of the banks being still very near or below their legal reserve requirements. this shrinkage in resources is forcing still further contraction of loan liabilities. The

tendency is increased by the approach of the annual settlement period for corporations, and preparation for the special demand for money which will be made by it | 264 6284c; ear corn. 294c. upon the supply. Sterling rates again advanced yesterday in New York, Paris and Berlin, notwithstanding a further easing of the rate for call money at the English center. The New York rate is now within a fraction of the gold export point, and it is nalpable that only a stiff rate for money mixed, 16; No. 4 mixed, 13; total, 52 cars. is palpable that only a stiff rate for money in the local market will hold it below that point. The closing of the stock market was generally easy and near the low point.

Prices of bonds declined in sympathy with stocks. Total sales at par value were \$1,260,000. United States new fours and old fours, registered, advanced 14. and old fours, coupon, and fives, 14 in the bid price. The twos declined 14. Following are the day's share sales and the closing bid

Trade Brisk with More Wintry Weather-Prices Firm and Steady. Three days in which the weather has been more wintry has given new life to trade in nearly all lines, and prices are distinctly harder. Eggs, poultry and butter are firm at the revised quotations of Monday, and the same is true of fruits and vegetables. Some fine winter apples are now coming on to the market, and selling at lower prices than it was predicted they would thirty days ago. Receipts of all vegetables are large, the colder weather not yet checking the shipments of articles in those lines. The flour market is quiet at unchanged prices. The hide and leather markets are active, with prices hardly as firm as last month. Grocers are having a big trade, with prices on all articles firm The local grain market moves along much in the rut of some days past. Receipts of corn are omewhat larger, and of other cereals very light. Track bids yesterday, as reported by the secre-tary of the Board of Trade, ruled as follows: Wheat-No. 2 red, 64%c; No. 3 red, 60%@63%c; December, 64½c; wagon wheat, 65c. STRONG TONE IN CHICAGO GRAIN AND PRODUCE MARKETS.

Belief that the End of the Decline Has Been Reached-Forces in Operation Behind the Trading.

CHICAGO, Dec. 5 .- Wheat ruled strong to-day, stiffened by smaller receipts and bullish predictions, May closing %@4c higher. Corn, animated by the strength of wheat and light offerings, closed firm with May 1/2%c up. Oats finished higher. Provisions, supported by light hog supply, a good demand and limited offerings, closed strong; May pork 20c, May lard 10c and May ribs 10c over yesterday.

May wheat opened at 69%c, a shade over yesterday, gained by reason of steady cables and a report from Ohio putting the condition of that State at 80 per cent. A decrease in European stocks, with the small world's supply last week, was taken by shorts as further reason for covering ber, \$5.45. at present figures. In view of the European conditions it is believed the export demand is almost certain to improve. Primary receipts for to-day and yesterday showed a decrease of 3,000,000 bu under last year. The visible, it was calculated, had reached the end of the period which has shown, almost without variation, increases depressing to the price and a further decrease was predicted for this week. With this array of backing the market became fairly active toward the close. The final figures for May were 69% (65); c. a gain of %c over yesterday. Clearances were large, equal in wheat and flour, from Atlantic ports, to 647,000 bu. New York reported 20 loads taken for export. Primary receipts were 647,000 bu, against 2,127,600 last year. Minneapolis and Duluth reported 574 cars, compared with 947 last week and 1,531 a year ago. Local receipts were 69

cars, seven of contract grade Corn was strong. Wheat was an iniluence. Offerings, despite the good weather for movement, were small, the contract stock (1,620,000 bu) decreased 38,000 bu. Recelpts were moderate, 534 cars here, purmary points reporting 444,300 bu, against 6.6.600 last year. Clearances were 103,000 bu. Provision brokers were the best buyers, although the outside was also a fair purchaser. The shipping demand was good. Business at times was fairly active. May opened unchanged at 321/8/0381/4c, sold from that figure to 32%c, closing 1/2c over yesterday at 32%@32%c.

Oats were firm, held up by corn and small offerings. The shipping demand was small and the export trade lifeless. The market was practically without feature. Clearances, 15,000 bu and receipts here ?44 cars, with a smaller estimate for to merrow. May opened a shade up at 23%c. ranged from 23% @23%c to 24@24%2, closing 4c higher at 24@24%c.

Provisions were active and emphatically strong. Trade showed a decided broadening; there was a persistent demand and little inclination on the part of packers to sell. The hog supply was not up to requirements-local receipts being 5,400 under the estimate-and shorts covered at consilerable loss. The strength of the market was apparent at the opening, initial figures all showing gains from vesterday's close. May pork ranged from \$9.70 to \$9.57%, closing 20c higher at \$9.85; May lard from \$5 12.5 of Good Hope and Natal-1,200 bales; to \$5.50 and closed 10c up at \$5.50. May ribs sold from \$ 221/05.25 to \$5.30, closing 10c Buenos Ayres-1,200 bales; greasy, 73/081/2d. better at \$5.30. Estimated receipts to-morrow-Wheat, 45 cars; corn, 175 cars; oats, 110 cars; hous,
